## Profile

---

I am a well-skilled Software Engineer with 2+ years of experience in ASP.NET MVC and .NET, with a solid foundation in web application development. With a passion for continuous learning, I stay abreast of the latest trends and technologies in the software development industry. Looking for growth and good job opportunities in my career utilizing my best skills.

## Professional Experience

---

### Software Engineer

2021/05 – present

*Simplify Healthcare*

Pune, India

I've been a software engineer for the last 2+ years on eBenefitSync Product maintenance and functionality upgradation. I have developed a strong knowledge of ASP.NET MVC, JS, jQuery, and SQL Server. I've also gotten better at debugging, module upgradation, and analysis. Worked upon different product modules to enhance stability, performance, and quality of the product.

## Projects

---

### eBenefitSync

2021/05 – present

*Simplify Healthcare Project*

eBenefitSync is a software product developed and maintained by Simplify Healthcare. This product is developed for the US Healthcare Insurance Payers companies. To reduce the manual efforts for maintaining the documentation and Health Plans for the Individual customers or Group Customers. This project is built with technologies like ASP.NET MVC, Java Script, Azure Pipeline, SQL Server, etc.

### HRMS

2018/06 – 2018/11

*Human Resource Management System*

A Java-based backend restful API project to manage different human resource related operations. This project is built using Java 8, Maven, MySQL, and Jax-RS.

### Personal Profile Website ([mrunal77.github.io](https://mrunal77.github.io))

2017/05 – 2017/07

A personal profile built with HTML, jQuery, Bootstrap hosted on Github Pages.
